Mines and Mining Stocks

SOURCE OF GOLD BEING SOUGHT

Owners of Rico Property in Farrell End of Seven Troughs Expecting Big Things.

Farrell, April 9.-This end of the Sev en Troughs district has been the scene of much activity of late, the hills being full of workers, and something new in the way of development is being reported every day. The Rico mine still continues the favorite field of specula-tion, and there is as much mystery connected with it as the story of any lost mine or treasure trove which has ever been written. It was late in the fall that some of the most remarkable float ever seen in this or any other country was picked up on the property, and ever since there has been a systematic hunt for the source of the ric rock. At first the float appeared as little more than specimen rock, but then they began to find bowlders, the largest of these weighing betweeen 200 and 400 pounds. This great chunk wa assayed and the lowest return was \$400-a ton, while the highest went \$2,400. For 100 feet to the east of the first find they continued to pick up the rich stuff, but they did not begin to get the real rich rock until they were at least phia yesterday, that contained the best under where ore was opened in an o 500 feet to the east of where the big kind of news concerning the affairs of shaft on the Kentucky claim, and I a chunk was found. The more recent the old Tonopah Mining company. The fully prepared to believe, from the rediscoveries comprise rock which goes letter states that the annual report of ports that have been coming from the from \$40,000 to \$50,000 a ton.

mine several velus have been devel-oped, and Mr. Myers feels confident that on one of them he is going to find the object of his search. This is a place where he has sunk a shaft for a depth of thirty feet, and has done from 130 to 150 feet of underground exploration. He has encountered a vein which he has developed to a width of

eighty feet, from which they have cross-cut a vein eighty feet. The vein is doubtless much less in width than this, or it has been probably thrown over. But there is at that about thirty feet from which they are getting good. completion. They have a shaft down lett Burton secretary eighty feet, from which they have President Brockma over. But there is at that about thirty feet from which they are getting good milling ore. The streak in this, from which they expect to ship, is from three to five feet wide, and they have about forty tons on the dump, which will average from \$25 to \$30 a ton.

Every bit of the dump pans. Every bit of the dump pans.

The Three Wills property, at the upper end of the Farrell part of the district, is getting out good ore from it tunnel, two feet having been struct which goes better than \$70 a ton. The are going after the ore here for all they are worth, eight men being at work Now they have started a lower tunne to find the ore at greater depth. W. E. Pruett has the management of the property, and interested with him are number of prominent capitalists Vincennes, Ind. Two of these men Messrs. Weed and Glass, are now on the ground, and they are more than pleased with the showing that has beer

Higher up the canyon lies the property of the Hero-Nevada Mines company, from where there has been al ready taken nice shipping ore and some very high grade. The best product of the property though, seems to be a bi body of ore that will go from \$20 to \$30 a ton. In addition to this, a vein o ten inches has been opened up for fift, feet, which goes as high as \$130 a ton This is called the Hillside shaft, and to get greater depth under this they are driving a tunnel which will give

The Seven Troughs Caesar has a tunnel in for a distance of 125 feet This will be driven 750 feet, by which time it will have intersected three dis-tinct veins, one of which gave assay eturns at the surface of as high as \$200 a ton. This is considered one of the most important bits of work that

> I've heard women say, Oh! I'm just dying for a bracelet, or I'm just dying for an opal ring. I save lives -from \$3 up.

The Jeweier 64 Main Street

Where the band plays Saturday nights.

Troughs, for it will show what there is here at a pretty good depth. George Mainhart, who is manager of the Seven Troughs Caesar, is delighted with the showing that has been made with the showing that has been made up to the present, and mining experts agree with him that he has the promise of one of the biggest things in the district.

Two other companies are making preparations to commence operations on an important scale. These are the Seven Troughs Farrell, north of town, and the Seven Troughs Gold Ledge. Both of these properties are under the management of Charles Widar, and the former has, at a depth of twelve feet, fourteen inches of ore, from which assay returns have been had to exceed \$70 a ton. On the second named property there is a well-defined basalt dike doubt that an important strike has e had which go from \$4 to \$5 a ton.

TONOPAH MINE

Coming Report Will Show \$8,-000,000 Worth of Ore Actually Blocked Out.

W. P. O'Meara was in receipt of a letter from J. W. Sparks of Philadel- this time reached a point practical the company will be issued this week, mine during the past few days, the The Rice mine is owned by Charles and that it will show that there is \$8,- the ore has been tapped. If that prove Myers, formerly of Goldfield, and his 000,000 worth of ore blocked out and true, the development should, and I be associates, and in the hunt for the source of the float they have prospected the ground most thoroughly by there is \$3,000,000 to \$4,000,000 worth of mean that assessments will be no long ed the ground most thoroughly by there is \$3,000,000 to \$4,000,000 worth of mean that assessments will be no long means of open cuts, shafts, drifts and additional ore which, while not suffitunnels. In the search for the lost ciently opened up to permit of cold- and it should result in the mine being blooded measuring, is still conceded to quickly placed on a good carning be "in sight" by the company's engi-

While this information will come as TETRO COMPANY MAKES surprise to even those who have considered that they knew all about the ore reserves in the Tonopah mine, it is which he has developed to a width of forty or fifty feet, and the opinion of the mining men of the district is that there is a trained in Mr. Sparks' letter. Farther also disclose the fact that there is a renountered. Far to the east, where the richest foat of all was found, they have a tunnel in for a distanace of 250 feet, which will ultimately cut another vein, where there will be another possibility for the finding of the rich shoot. In addition to these there are other veins opened up at the surface, and the ground of the Rico mine has taken on the appearance of a field which has been operated upon with a plow. They are certainly going after the source of that float in earnest.

The Rico mine lies about half a mile to the west of Farrell, and adjoining it is the Rambler property, upon which the twest of Farrell, and adjoining it is the Rambler property, upon which the was for Farrell, and adjoining it is the Rambler property, upon which there was recently taken a bond and a lease for \$60,000. Considerable work is going on in this property, and several good showings have been uncovered. Beyond lies the Snowsquall, for a half interest in which the owners recently refused a tidy sum in cash, The Snow squall will probably be the first mine to ship ore to the mill of the London syndicate, which is fast approaching the solution of the bard of directors, of which the report will also disclose the fact that not the only good news that is conforty or fifty feet, and the opinion of lained in Mr. Sparks' letter. Farther

DOINGS OF UNLISTED

STOCKS ON EXCAHNGE

Lintah, Treasure Hill was the whole thing in the open board trading yesterday afternoon. In the forenoon the stock was offered at 22½c, and while there was a bid of 22c, no business was done. The first man to speak in the afternoon offered the stock at 22c and was promptly pounced upon by a dozen brokers who claimed the trade. The next minute it sold at 22½c, then at 23c, at 24c and finally at 24½c and ½c cent higher than that for future delivery. In all there must have been 20,000 shares changing hands. Strike news from the mine started the buying. The only other stock to change lands was East Tinio El Por The 12c.

In accordance with the terms above stated.

Therefore, should you desire to purchase Plutus stock at the price herein maned you should send you Tetro stock to me with an order for the dividend mentioned in this letter prior to the 20th day of April. 1909, and I shall certify to the stock which you send and forward the same to the secretary of the Plutus Mining company, together with the money for the purchase of said Plutus stock and will send you by mail said stock.

You can readily see that it will be to your advantage to make the exchange of stock instead of retaining the 8 cents per share declared as a dividend.

Mining Notes.

Eleven carloads of ore from Utah mines buying. The only other stock to change ands was East Tintic El Rey, which

Bingham Central-Standard was offered at 31c. Copper Hill was quoted at 1c at 2½c. Demijohn at 11½c asked, Mammoth at \$1.60 at \$1.95. Nevada Amalgamated M. & Ex. at 25c at 26c and Naildriver at 15c bid.

ISAAC GUGGENHEIM PREDICTS BIG BOOM

Isaac Guggenness, a European trip, says:

"The United States is on the threshold of the most prosperous era in its history. Within six months, barring untoward circumstances, the depression since the 1961 panie will have disappeared. I found the people of Europe more confident of approaching prosperity in the United States than the people here. All Europe is looking toward the United States to lead the way in a prosperity era that will extra the way in a prosperity era that will extra united states to lead the way in a prosperity era that will extra united states to lead the way in a prosperity era that will extra united states to lead the way in a prosperity era that will extra united states to lead the way in a prosperity era that will extra united states to lead the way in a prosperity era that will extra united states to lead the way in a prosperity era that will extra united states to lead the way in a prosperity era that will extra united states to lead the way in a prosperity era that will extra united states to lead the way in a prosperity era that will extra united states to lead the way in a prosperity era that will extra united states to lead the way in a prosperity era that will extra united states to lead the way in a prosperity era that will extra united states to lead the way in a prosperity era that will extra united states to lead the way in a prosperity era that will extra united states to lead the way in a prosperity era that will extra united states to lead the way in a prosperity era that will extra united states to lead the way in a prosperity era that will extra united states to lead the way in a prosperity era that will extra united states to lead the way in a prosperity era that will extra united states to lead the way in a prosperity era that will extra united states to lead the way in a prosperity era that will extra united states to lead the way in a prosperity era that will extra united states to lead the way in a prosperity era that will extra united states to lead the way and the Isaac Guggenheim, just returned from

HAS A STRIKE

Reached in the Uintah Treasure Hill.

Though absolute official verification rossing the ground, and values are to been made in the Uintah Treasure H Coalition Mining company's proper at Park City. When General Manag J. Will Knight was in the city ear n the week he stated that a chan; had occurred in the formation where the drift is being run on the 265-foot lev of the Creole shaft. Superintendent l . Andrew had said that the rock look o well at that time that most peop

would be prompted to call it ore. Yesterday afternoon there was a suden and heavy demand for the stoo and, while it came out freely to a sma dvance in the bidding, the fact is a tributed to the belief that most of the brokers figured it as a "boost," premoi itory of a coming assessment. In the

they were evidently mistaken.
"I know that the drift on the 265-for evel," said a man who has long bee identified with the proposition, "has !

STATEMENT ON SAL

Notwithstanding all the explanatio

dividend of said money under a resolu-tion of the board of directors, of which the following is a copy:

"Whereas. This corporation has hereto-fore sold all its real and personal prop-erty to the Plutus Mining company. a Utah corporation, for the sum of \$24,000 cash, and received and now has said money in the treasury of this corpora-tion, and

"Whereas. Said" money constitutes the entire assets of this corporation, and the same should be distributed as a dividend "Now, therefore, be it resolved, That a dividend of the sum of \$24,900 cash be and

Now therefore, be it resolved, that a dividend of the sum of \$24.000 cash be and the same is hereby declared on the capital stock of said corporation; that said dividend be payable in money to the stockholders in proportion to the number of shares of stock held by each stockholder, respectively, at the rate of 8 cents per share; that the transfer books for said dividend shall close at 6 o'clock p. m. on Friday, the 16th day of April, A. D. 1909; add dividend is payable on Tuesday, the 20th day of April, A. D. 1909.

After the purchase of the property of the Tetro Mining company, a large number of the stockholders of the Tetro Mining company, and the Plutus Mining company, and the Plutus Mining company agreed and did give an option to the stockholders of the Tetro Mining company of Tintic to buy 270,000 shares of its treasury stock at 8-9 cents per share on or before April 23, 1909.

23. 1909.

You are therefore notified that you may purchase Platus treasury stock pursuant to said option, to the extent of your holdings of Tetro stock; that is, for each ten shares of Tetro stock you own you can purchase mine shares of Plutus stock.

The Plutus stock is now selling on the Salt Lake Stock and Mining Exchange for .. cents per share, and I respectfully recommend the purchase of Plutus stock in accordance with the terms above stated.

Therefore, should your desire.

Eleven carloads of ore from Utah mines and one from Nevada were released from the Taylor & Brunton sampler yesterday. General Manager Thomas Kearns of the Silver King Coalition company left for his California ranch last night. Ed S. Chafey, president of the Chafey Mines company, left for a three or four days' trip to the company's properties

Lee Howes, who has just returned from a trip into the American Fork district, reports that he has run into a nice little bunch of ore in the Silver Flat property in Deer creek.

Ore and Bullion.

velop into pneumonia. Avoid counterfeits by insisting upon having the genuine Foley's Honey and Tar, which contains no harmful drugs. F. J. Hill Drug Cc.

Ore and builion settlements in this city yesterday, as reported by McCornick & Co., amounted 55,000, as follows: Silver, lead, gold base bullion, \$30,000.

MINING STOCK EXCHANGE. EASTERNERS AMAZED AT NEW CAMP'S SHOWING

I am not disposed to take away any of Goldfield's laurels, but I do confess that outside of this place there is no other that outside of this place there is no other spot in the whole state where I had rather cast my lot, than right up there. I tell you that unless a man has seen the things which are now to be seen, it is hard to believe that there is such a wonderful little spot of ground anywhere as is now being developed in the Lucky Boy section. I saw ore that I never thought could exist come from the bottom of the shaft of the Hubbard lease on the Mountain King ground, and in visiting other properties now in course of development I saw at a point near the surface some of the richest stuff I have ever seen since I have a point near the surface some of the richest stuff I have ever seen since I have been in the mining game. There are, in my judgment, a number of the leasers who will come out of that country with millions, and I am proud to tell you that John Mitchell and John Fairfield are in just as sure as they continue to work their ground. So is T. L. Oddie—and every man in the state who knows him will be glad of it. I am not wild over new strikes, and have never been particularly excitable over them, but I am deeply interested with the outlook of this new find, and feel certain that within the next few months wonderful things may be expected from the vicinity of Hawthorne. This is one of the few districts starting out under the proper kind of management, and package. F. J. Hill Drug Co.

Charles Ovide Blakeslee announces that he will give an Easter term of twelve lessons in voice or piano training at a special low rate, term begin ning Easter week. Anyone wishing short course or intending to begin an extended course will do well to inquire 131/2 at 618-19 Templeton building. Dance at Saltair tonight.
